

Appendix S

Specific Actions to Improve Satisfaction with Environmental Protection

42. Could you please tell us specific actions the Town could take to make you more satisfied with environmental protection?

- Could do more pickup of more recyclable items
- Recycling should be picked up at least once a week even with the new bigger bins
- Should make information more clear for recycling
- Erosion; new construction barriers between new construction and the existing areas like trees or shrubs so it isn't seen
- Cary did plans for subdivisions and erosion in my backyard yet no one considers new building developments of existing surrounding homes
- There was a rat running around my yard and they did nothing
- Bigger buffer zones
- More people need to be informed about what can be recycled
